

FastGene[®] Taq ReadyMix with dye is recommended when reaction products are analyzed by agarose gel electrophoresis:

Fig. 4: FastGene[®] Taq reactions with 1X Loading Dye Reaction Buffer A. Volumes above wells indicate the volume of the PCR reaction loaded on the gel. B. On a 1% agarose gel, the blue dye migrates at the same rate as a 5 kb DNA fragment, and the yellow dye migrates at 75 bp.
